WEB DESIGN. ELEVATED.

Website-as-a-Service & industry management software
for East Tennessee small businesses

Erwin, TN · Tri-Cities · 2026

THE PROBLEM

Local businesses are losing customers online

- Many shops rely only on Facebook — no owned digital storefront
- Outdated websites hurt credibility and fail on mobile
- Traditional agencies charge \$3,000–\$10,000+ upfront
- Owners are left to update hosting, security, and content themselves
- Generic software stacks don't fit how local industries actually operate

East Tennessee's underserved small-business market

- Target: plumbers, HVAC, roofers, restaurants, boutiques, and professional services
- Service area: Erwin, Unicoi County, Johnson City, Jonesborough, Kingsport
- High-intent local search: web design Erwin TN, affordable web developer Johnson City
- WaaS model lowers barrier to entry and creates predictable recurring revenue
- Expansion path: industry-specific management software beyond websites

Website-as-a-Service (WaaS)

Pinnacle Designs builds conversion-focused websites for local businesses — then acts as the outsourced webmaster: hosting, SSL, security, SEO, and done-for-you updates every month.

- Small down payment + flat monthly subscription
- Text us when prices or photos change — we handle the rest
- Continuous maintenance so sites never go stale in ~2 years
- Zero tech headaches for the business owner

The old way vs. the Pinnacle way

Traditional Agencies

- ✗ Huge \$3,000+ upfront cost
- ✗ You update the site yourself
- ✗ Pay extra for hosting & security
- ✗ Site goes out of date in ~2 years

Pinnacle Designs

- ✓ Affordable down payment from \$500
- ✓ We make updates for you
- ✓ Hosting & security included
- ✓ Continuously maintained & modern

Three plans. One simple model.

Base Camp

New businesses & contractors

\$500 down

+ \$99/mo

- 3–5 page site
- Basic SEO
- Hosting & SSL
- 1 hr/mo updates

Ascent

Established local shops

\$1,000 down

+ \$199/mo

- Up to 10 pages
- Google Business Profile
- Analytics
- 2 hrs/mo updates

Summit

Retailers selling online

\$2,500+ down

+ \$299+/mo

- Full store setup
- Payment gateways
- Priority support
- Catalog updates

Design fee + monthly retainer. Larger add-ons quoted separately in contract.

What clients get

Never worry about hacks

Security scanning and managed hosting.

Show up locally

Mobile-friendly design and SEO for the Tri-Cities.

Unlimited peace of mind

Monthly updates keep content current.

If you don't love the design we present, you don't pay the down payment. Zero risk to get started.

Beyond websites: tools built per industry

In active development — industry-specific management software so local businesses handle jobs, customers, and operations without juggling a dozen apps.

Home Services

Scheduling, customer records, follow-ups

Retail & Boutiques

Inventory, customers, sales tracking

Restaurants

Menus, order flow, staff coordination

Professional Services

Intake, booking, project tracking

Predictable revenue, low client friction

- Revenue stream 1: One-time design & setup fees (\$500 – \$2,500+)
- Revenue stream 2: Recurring monthly management (\$99 – \$299+/mo)
- Revenue stream 3: Out-of-scope projects (new pages, integrations, e-commerce add-ons)
- Revenue stream 4 (future): Management software subscriptions by vertical
- Low CAC: Local SEO, referrals, Facebook, and Tri-Cities networking
- High retention: Ongoing updates create sticky, long-term client relationships

Built to scale locally

- Live brand & marketing site at pinnacle-designs.com
- Contract templates ready for Base Camp, Ascent, Summit, and software beta
- Formspree contact pipeline and Google Analytics in place
- Cloudflare-hosted with SEO, FAQ schema, and local landing content

\$500
